We had new contractors every week! The communication was not handled well. Someone actually sent home a contractor doing work on my house because of a mix up. Leaving my patio torn apart for a week.

It didn't seem like they cared to do quality work in a timely manner. They tried to cut every corner that they could, it seemed to me.

My experience had more to do with the contractors than ICS. They tried their best, and labor was hard to find at the time. The workmanship was not the best. I feel the company lacked supervision over the work that was done. Every step of the way, I had to point out mistakes. It was not a pleasant experience.

General contractor didn't come to my house to check on the project unless an exchange of money was to take place. He was quick to show up then. A week long job turned into almost 8 weeks and we are still making touch-ups from poor workmanship. Contractor didn't communicate with his workers on what needed to be done or when it needed to be done. The only workers who were diligent were the ones who painted. They were great. I will never use ICS again.

The job took far too long to be completed, and the communication was poor, however the subcontractors did do decent work.

They did very poor workmanship. The things that they repaired are coming apart. The doors are falling off. The paint is coming off the walls. The fixtures that they put in the sink are not working. The laminate on the cabinets is coming loose. The work that they did is very bad. It looked good at first, but after 3 weeks it is coming apart. I wouldn't recommend them to anyone.

Jul 05, 2021

Very unprofessional. They completed only a small portion of the work. The first gentleman that came out was pushy about getting signatures for work that was not clearly explained to me, and after having my tenant sign a waiver to perform mold mitigation he promptly left the property without doing what he said he would do. One of the biggest issues was a bad plumbing leak under the house which they failed to notice when they reportedly "looked under the subfloor". They similarly reported a high level of moisture under the kitchen cabinets but just could not figure out why. Altogether a poor performance and I will not recommend them to anyone.

I do not appreciate you billing our insurance company and telling them that I signed your document saying we completed work with you. That is called fraud.

REVIEW

May 25, 2021

The workers who actually do the work are competent, professional, and courteous. The company suffers from lack of coordination and unresponsiveness to phone calls. It took much too long to get the work done. They had to be contacted by us many times rather than them contacting us.

They hid two things that should have been taken care. However, because I signed off after it was completed, and I found out about it after the fact, now I have no recourse to get it fixed.

Sep 11, 2020

There was a bubble in the ceiling upon job completion, they came back to fix it since it has a one-year warranty. However, the bubble is still there. Things look slightly different than I had anticipated them looking. However, if that is the best quality I can get, then so be it.

Mesquite, TX
Aug 07, 2020

Even and his staff Victor responded immediately after a rain storm in Mesquite set up humidifier and fans to prevent/remediate any possible mold and moisture. Job well done. The guys communication is key to a strong professional business and key to helping homeowners understand what is necessary to do to make your home to its original form as possible without the stress. I would recommend ICS to any family member and most certainly to friends. Keep up the good works! Sonya M

Jan 24, 2020

I adored the construction supervisor, he was absolutely wonderful at his job. I appreciated him. I was not happy with how they presented what each thing cost. It was very difficult for me to know in case I wanted to upgrade something. I thought it should have been my decision if I wanted to upgrade anything. I was able to pick out the tile and was told the amount more that was added on, but I never knew what my budget was for particular items. I also did not know how much the insurance had given or was in the budget for other things. I gave the construction supervisor a hard time and we could tell he was not able to tell us. The construction boss and his crew were outstanding. The supervisor was also outstanding, helpful, and respectful. He would return phone calls immediately.

COMMENT

Additional Comment
Jan 21, 2020

The communication was great. They did the job far better than I thought it would be. I was just really happy with everything they did. I had a flood, and they had to rip out my half bathroom and I was sort of stressed out. Once the initial contractor came in he put me at ease. I just felt comfortable going ahead with ICS, and they completed the project. I have been very happy with them.
