Everything with one exception went smoothly. Due to my handicap situation (I use a walker to move around) I didn't park my car at the curb during the job. I made arrangements to have my car in the garage on the west side so I could load my walker into the car for my medical appts. They agreed to park their debris trailer on the east side of the driveway. The first time I had to leave for a medical appt I had to clean up some nails on the driveway.

Kameron was professional and responsive. There was a delay after demolition, longer than we anticipated. I contacted Kameron and he responded right away. The roof was completed and looks great.

I was surprised at how professionally and quickly they came in and redid my entire roof. They initially advised me it would take four days to remove three layers of old shingles (!!) and replace them. They only took two and a half days and would never know that they had been here. There was no trash, nails, or old shingles left on the property at all. They were excellent and I have recommended them to a number of my neighbors.

Danny Wilkins is very thorough and knowledgeable. He went out of his way to meet me at both Eagle and Boral to choose the best matching tile. Manny the superintendent was friendly, knowledgeable and communicated where they were at with the roof and timeline. Office staff was always great and attentive (Brianna (?) & Corvina (?) spelling sorry!)

Joe Kim did a great job. I think it was Manny who came out to our house on a Sunday evening to help out with sky light problems - he also did a great job.

We were more than reasonable and there was zero communication from the office staff. Their foreman was ridiculous with communication. I would never recommend them to anyone I know. The owner never reached out to us to make things right or acknowledge anything which is frustrating to me.
