Recent Reviews & Published Comments

COMMENT Additional Comment Apr 17, 2015	The features I like most are my kitchen and my bathroom.
COMMENT Additional Comment Oct 16, 2014	I have recommended my friends even before they started my project. And will gladly recommend them now.
COMMENT Additional Comment Oct 09, 2014	They did an amazing job with everything. I had a great experience with them. I haven't had any problems. They are very knowledgeable about their jobs. Coming from a person that was originally scared to do a big project like this, they were a blessing.

The whole crew was awesome. Joey was great. Gary was great. Those are the ones that I spoke to the most. They were easy to talk to, were able to breakdown what was going on, and were very personal with it. I was able to contact them at any time and that was helpful.

It was good. My neighbors really enjoyed being able to see the project being done. They really enjoyed it. The contractor crews that they had on site were really pleasant. They started at a time where people were up and moving around and weren't disturbing everyone. I liked that. They didn't bother the neighbors or anything.

From the appearance of what they did to us, it looked just as planned. We started with a drawing and everything ended up the way they expected it to look. Changes needed to be made. Not that we were making a lot of changes, some things were suggested, and they were very flexible with accommodating those types of changes.

The quality of the end product. Project management was also excellent. Jim Carlton was patient, understanding and provided excellent feedback and service throughout the project timeline. We were very pleased with the entire staff at New City Construction. Projects like this can create anxiety at times, the team at New City did an excellent job of keeping us grounded.
