Expertise in the various improvements we sought for our home — bathroom remodeling, concrete repair/finishing, wall resurfacing/painting, installation of crown molding — all were beyond our satisfaction and performed by an efficient, friendly crew. In one small joint in the crown molding a separation occurred three days after completion of the work. One phone call to the office brought the worker back within hours to re-grout the joint and repaint. Completed promptly and thoroughly.

★★★★★

Pittman Service Group conducted rather extensive renovations to our home, and each phase was expertly completed by craftsmen who were efficient, thorough and courteous. We heartily recommend Pittman.
