Great experience start to finish on the project. Was the best price, best warranty, and sales team was no pressure. James S. was our installer, and he was courteous, professional, neat, and did a great job. Would definitely hire these guys again, and plan to on doors next year.

Chris G, our installer, was amazing. Very considerate and very thorough. We ran into quite a few snags with being such an old (and previously foreclosed) home, and he made sure the job was done right. We couldn't be happier with our new bath. We feel like we are living in luxury!

My installer Lance Krueger did a great job. Even though his partner got sick and didn't come back for the full install, he still finished in a timely manner. I highly recommend him as your deck installer.

Do Not trust this company. Their credit company that Tundraland uses is not trustworthy at all. There are huge cracks in my walls now because there was no knowledge of my home and how the windows would affect it. We feel like all they wanted was our money and didn't care about anything else. There is absolutely no communication between the salesperson and the installers. It took Tundraland almost two years for someone to call for a survey about how my experience was.

James did a grate job from start to finish putting in my tub and shower making sure everything was as i ordered and clean up was spot less. and showed me all i needed to know about cleaning and maintaining. The sales part was a little long winded and lot of fluff before getting to price and would of like to know cost of up grades like double shower rod and a lever drain over bending over for a pull drain i did not know tell it was in and maybe cost of having a fixed and hand held combo head. but was package price it took forever to get to . only up graded talked about was walls and ceiling. But in the end looks nice.and happy with it so far.

Tundraland Home Improvement did a great job. The job took about five minutes less than the estimated time I was given, so you couldn't ask for any closer. I couldn't have asked for better service. They were polite and protected my home, putting tarps down from the front door to the bathroom and made sure they stayed on the path. They cleaned up everything; they just did a terrific job. I was very impressed!

The deck that was installed by Lance K., Dave, and John exceeded our expications. The quality of the materials that were used, the professional skill level of these men showed in the pride of the finished deck. The railings couldn't have been installed better. The installation of the step completed the deck. Very sturdy, beautifully completed. Lance had to move some pavers inorder to install the base for the step. When he was completed the step, he took his time to reinstall the pavers. It just finished it off. The job site, my garage and driveway was cleaned up after the job. A 5 Star job.
