Julius Wells did an excellent job explaining the process, meeting with my insurance claims professional, helping me pick out the shingles, keeping me informed as we waited for good weather, double checking the work as it was put on, and helping me feel comfortable. I trust Julius and recommend him and DHI roofing to help you with your home.

Working with Jake and DHI has been a great experience when dealing with the results of a storm. They walked us through everything and helped deal with the difficult and often contrary insurance adjusters.

Brian walked us through the whole process and went above and beyond. His attention to detail is excellent. Work was completed on time and DHI did everything they said they would do. The workers did an awesome job of cleaning up after themselves.

Here it is 8 months after the initial start of the job and it is not complete. I had problems with the roof replacement, window wraps and guttering. I had to ask for the bill and still waiting on the warranty paperwork. I am the one who keeps sending texts, calling the office and sending emails. I had to hire a person to clean up my yard, and they broke items, like yard lights, window shutters (still waiting for those to be replaced) and still awaiting for the windows to be caulked, very bad job....

Took many months to complete the project that was supposed only take 30-45 days. They subcontract all the work to cheap vendors. The main guy was nice, but overall they were very disorganized and didn't meet commitments.

Brian had to coordinate our new roof (needed because of storm damage) with the removal of bats from our attic, which took weeks because the bats weren't mature enough to fly out. We couldn't be happier with the way all of our mess was handled. Brian and DHI removed the stress from a stressful situation.
