FEEDBACK REPORT *for* Energy Plus Home Improvements

REVIEW

Martha P.
Ithaca, MI
Jun 08, 2019

Energy Plus recently insulated my home and the experience was even better than I anticipated. From the initial consultation/estimate process, to scheduling updates from the office, to the actual insulation event, the staff was completely professional, respectful, and helpful. I was immediately comfortable with them and was treated with respect throughout. All of the employees explained in great detail what they were doing and answered my questions clearly and to my satisfaction. Without exception, each employee with whom I came in contact was friendly and efficient in the execution of their responsibilities. Like Show more reactions

We are very satisfied with the finished product. Our sun room is beautiful inside and outside. The custom built fireplace is quite impressive! The deck perfectly compliments the beauty of our sun room.

Chris, Mason and Sue were all responsive and friendly throughout the project. Chris and Mason surely aimed to meet our expectations. Chris is a talented visionary and has an excellent right hand man, Mason, who demonstrated dependability and a good work ethic.

Energy Plus, both as a company and as individuals that I spoke with, are polite, professional and very easy to work with. They were very flexible and fast and got the job done in a timely manner, and with a great work crew and office team. I would happily recommend them to anyone, and hope to work with them again in the future, myself.

The entire Energy Plus crew I have worked and spoke with were great. But Sue has been so nice and always very polite over the phone when we talk. And always willing to work with me when things come up!

★★★★★

Had an encapsulation done on our crawlspace. Guys were awesome and even took care of things they didn't need to. Recommend them and would use them again for jobs.

They dealt with all issues in a very timely fashion. When I contacted them about a minor issue they were there that same day to deal with the issue. An issue that I could have dealt with but instead of telling me how it could be fixed, they took care of the issue themselves and very timely.

I had a very problematic leak that defied a fix. They stayed on it until it was discovered and fixed.

Sue, the communicator. Mason, the facilitator. Chris, the owner.

COMMENT

They are communicative. They honor their commitments to keep at the job until the mystery leak in roof was fixed.

★★★★★

From start to finish Chris Kress worked with me very patiently and professionally. I was kept well informed by Sue Whitford. The whole process of getting a new roof was as good as it gets. I would recommend working with Energy Plus Home Improvement.
