Zipco made our disastrous water damage experience less stressful. They were on top of things immediately and made us feel they were going to take good care of us and see all repairs made. It was done in as timely a manner as possible with the situation, they were responsive to our needs and we always felt secure and safe in their hands.

We have surveyed customers on behalf of Zipco in Kansas City, MO; Overland Park, KS; Olathe, KS; Lees Summit, MO; Kansas City, KS; Lenexa, KS; Shawnee, KS; Independence, MO; Blue Springs, MO; Gardner, KS; and 39 other cities in Missouri, Kansas, California, Maryland and Texas.

We were connected to Zipco through our insurance company after a bathroom flood. They have been great to work with. Would definitely recommend their company!

These people can't even manage to generate a final bill. The simplest thing on earth.

I had a very poor experience. They did not have any follow-up. There did not seem to be any management. People just kept showing up. The punchlist was completed in 45 days.

Zipco's project manager was okay to work with, but his sub contractors were terrible. Hardwood floors and ceiling repair had to be done twice due to extremely poor workmanship.

Zipco was extremely professional and responsive to our needs on the roof replacement. The follow-through was tremendous and some installation issues were caught by site superintendent and taken care of immediately. I would highly recommend Zipco for anyone needing work accomplished.

After 5 weeks of trying too get things started we get an email stating they can't do the work due to being a manufactured home knowing this from the beginning.
